Help build the future for our students, teachers, schools, and community...
Brick by Brick, Mind by Mind.

The Education Foundation is expanding its capacity, helping to ensure that every public-school student and teacher in Palm Beach County will receive the resources they need to unlock their potential and strengthen their skills for a bright future.

EDUCATION
FOUNDATION
OF PALM BEACH COUNTY

The “Why”

Like bricks stacking upon bricks, knowledge is built. Children must first learn the “ABCs” in order to read and must learn to read to allow them to write, research, and reason. Learning is construction – knowledge building upon knowledge.

The Education Foundation of Palm Beach County empowers public-education by supplying the *builders* – the district’s schools and educators – with the essential materials required for the task. From awarding grants to support innovative programs and scholarships to providing necessary school supplies and resources from Red Apple Supplies, the Foundation’s Signature Program, the Education Foundation plays an integral role in supporting the vital development of over 180,000 students, representing the future of our community.

This future needs us – and you – right now. Your generosity and civic-mindedness will serve as the foundation for our schools to build the future that we and our students deserve – *brick by brick, mind by mind.*
